Single Shell Extension Tube
Mounted to the Benelli Shotgun

The Wilcox *Single Shell Shotgun Extension Tube for the Remington and Benelli Shotguns* is a unique endcap that threads on to the Magazine Tube of the Benelli M4 Super 90 and Remington 870 Magnum Shotguns.

Features:

- This Unique End Cap Adapts to Both the Remington and Benelli Shotguns for Flexibility in Use
- Adds One Shell to the Round Holding Capacity of the Magazine
- Reinforced Wall Thickness to Prevent Damage from Shrapnel
- Spiked Forward Tip Allows the Operator to Secure a Steady Attachment to the Door Surface
- Threaded Tube End Interfaces With the Thread Locking Ball Detent of the Magazine Tube on the Weapon, Locking the Tube in Place When Fully Threaded
